

Service Insights on MealConnect (SIMC) is the new digital distribution and intake software for our partner agencies. It is a **FREE no-cost system available to all partner agencies.**

SIMC electronically and securely stores neighbor data on a shared network. This means we can use a single unified database of information, while keeping neighbor visit data private to each agency. We can get a better understanding on what is driving food insecurity and what our neighbors need. It also means faster service and no more giant paper binders or outdated databases! The software is web-based and can be accessed from virtually any device.

What you need to know:

1

When neighbors visit your distribution, you can collect important data with customizable intake questions. This data is stored securely for an easy and quicker check-in process when they return.

Basic Information

*First Name Middle Name (Initial) *Last Name

*This is required *This is required

Suffix ☐ Anonymous

*Date of Birth OR *Age

*This is required *This is required

Contact

Gender Identity

Race / Ethnicity

Household

How many people in your household, **not including yourself**, will benefit from the services provided today?

Adults (18-59 yrs.) Children (0-17 yrs.) Seniors (60+ yrs.)

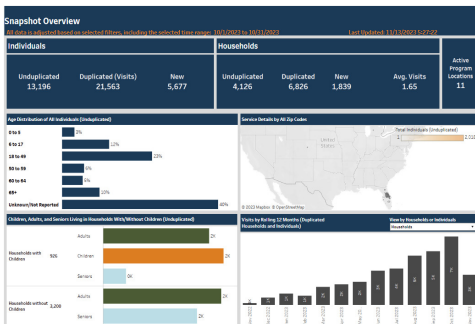

SNAP Benefits

Other Government Programs
